CE

Declaration of conformity to the rule of the American Federal Communications Commission (FCC)

This equipment has been tested and declared compliant with the limitations relating to a class B digital device, in accordance with Subsection J of Section 15 of the FCC rules.

These provisions aim to ensure reasonable protection against harmful interferences when the device is used in a commercial environment. This equipment generates, uses and can emit radio energy and, if not installed in accordance with the instructions of this manual, can cause interference of such a nature as to affect radio communications. The use of this equipment in a residential area may cause harmful interferences to which the user is responsible for correcting at his own expense.

Environment

This symbol means that your inoperative electronic appliance must be collected separately and not mixed with the household waste.The European Union has implemented a specific collection and recycling system for which poducers' are responsible.

This appliance has been designed and manufactured with high quality materials and components that can be recycled and reused.

Electrical and electronic appliances are liable to contain parts that are necessary in order for the system to work properly but which can become a health and environmental hazard if they are not handled or disposed of in the proper way. Consequently, please do not throw out your inoperative appliance with the household waste. If you are the owner of the appliance, you must deposit it at the appropriate local collection point or leave it with the vendor when buying a new appliance.

(a)- If you are a professional user, please follow your supplier's instructions.
(b)- If the appliance is rented to you or left in your care, please contact your service provider.
Please help us protect the environment in which we live!
