# FIRST INSTALLATION

## 1 Connecting the Base

1. Plug one end of the telephone line cord into the telephone jack on base bottom. (Fig. A)
2. Plug the small end of power adapter into a power jack on base bottom. (Fig. B)
3. Plug the large end of power adapter into a wall power outlet. (Fig. C)
4. Plug the other end of the telephone line cord in to the telephone jack or micro-filter.
5. Always use the cables provided in the box.
6. For Duo version, plug the power adaptor of the charger into a wall power outlet.

## 2 Installing the handsets and Charging the Batteries

1. Slide down to open the battery compartment cover.
2. Place the 2 supplied rechargeable batteries as indicated. Pay extra attention to direction of polarity.
3. Slide the battery compartment cover back.
4. Put the handset on the base or on the charger and charge for **15 hours** before using the handset for the first time. The handset will emit a beep when it is properly placed on the base or charger.
   **Always use the rechargeable batteries provided in the box.**

**Notes:**

If you need to remove the batteries, slide open the battery compartment cover and using the finger hole, grip the batteries and gently pull them out.

## 3 First settings before use

After first time power up (base unit is connected to AC mains), welcome mode message will appear on the screen (Fig.1).

1. Select the country where you are using the phone :

Fig. 1

2. You can select a language different from the country in HANDSET SETTING menu :

OK/MENU / ▲ or ▼ / **HS SETTING** / OK/MENU / ▲ or ▼ / **LANGUAGE** / ▲ or ▼ /

select your language among the below proposals and validate with OK/MENU

| EN | DE | FR | IT | ES | EL |
|---|---|---|---|---|---|
| LANGUAGE | SPRACHE | LANGUE | LINGUA | IDIOMA | ΓΛΩΣΣΑ |
| PT | RU | NL | PL | RO | SRB | HU |
| IDIOMA | ЯЗЫК | TAAL | JĘZYK | LIMBA | JEZIK | NYELV |

In case you selected a wrong language please find below the translation of HS setting to reselect the language

| EN | DE | FR | IT | ES | EL |
|---|---|---|---|---|---|
| HS SETTINGS | MT-EINSTEL. | REGL. COMB | IMPOSTA PORT | CONF. TELEF. | ΡΥΘΜΙΣΕΙΣ ΑΚ |
| PT | RU | NL | PL | RO | SRB | HU |
| CONFIG. TERM | ОПЦИИ ТРУБКИ | HANDSET INST | USTAW WŁASNE | PROGR PERS | PERSONALIZ. | K.B. BEALLIT |

# ? Troubleshooting

If you have difficulty with your phone, please try the suggestions listed below. As a general rule, if a problem occurs, remove the batteries from all the handsets in your installation for about 1 minute, then disconnect and reconnect the power supply to the base and reinstall the handset batteries.

| Problem | Cause | Solutions |
|---|---|---|
| No dialing tone when pressing 📞 key. | **a.** The connection cord of the base station is not plugged in.<br>**b.** The adapter cord is not plugged in correctly in the base station.<br>**c.** The line is busy, as another handset is used.<br>**d.** Wrong connection cord. | **a.** Check the connections. Unplug and plug back in the mains. Check that the telephone line cord has been plugged into the base station and the phone socket.<br>**b.** Check the base station plug and the AC plug (remove and plug-in).<br>**c.** Wait until the line is unoccupied.<br>**d.** Use the original connection cord. |
| *"SEARCHING"* is displayed. | **a.** Base station out of range.<br>**b.** Base station is not connected to mains. | **a.** Reduce the range.<br>**b.** Connect base station to mains. |
| The call does not work. | Service not activated or wrong operator. | Check your Subscription with network. |
| No display. | Empty batteries. | Recharge batteries. |

MACHINE** / [OK MENU] / [▲] or [▼] select **TAM SETTINGS** / [OK MENU] / [▲] or [▼] select **OGM SETTINGS** / [OK MENU] / [▲] or [▼] to select **ANSWER ONLY** or **ANS & REC** / [OK MENU] / [▲] or [▼] select **RECORD MESS** / [OK MENU] to start recording / [OK MENU] to end recording.
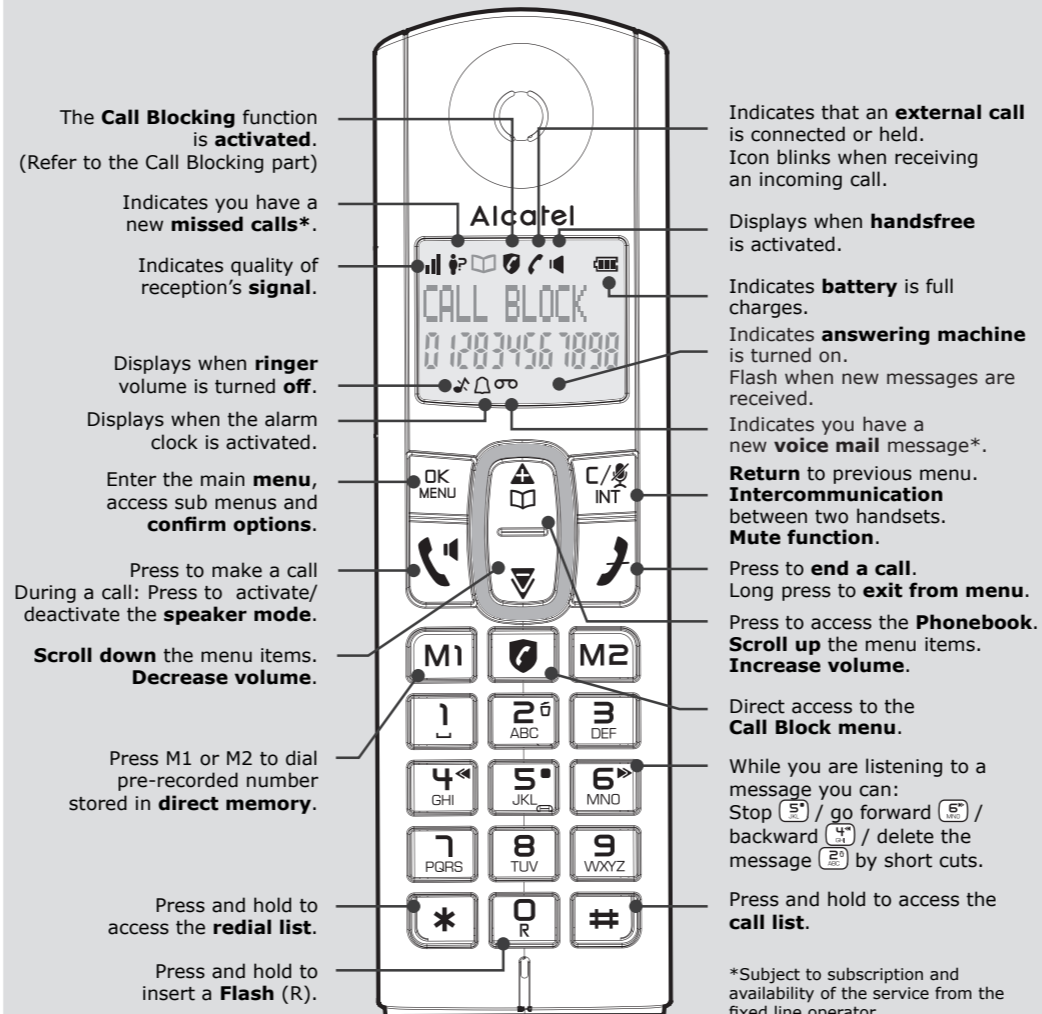

## Call Block

This telephone is built-in with Smart Call Block feature*. This feature will help you avoid nuisance calls by only allowing some numbers to make your phone ring. Any other number will proceed normally. Default setting Smart Call Block in this telephone if OFF but you can enable it via your phone settings
*This feature requires a subcription of Caller Line Identification service from your network service provider. Charges may apply.

| Setting | Expectation |
|---|---|
| **OFF** | Call Block function (Block all call with numbers) is Disabled. This is the default mode. |
| **ON** | Call Block function is set to Manual. Numbers registered in the black list will not go through and the phone will ring silently. Numbers can be added to the list while the phone is ringing and / or after a call (to enable, see part 1). |
| **CONTACTS** | In this automatic mode, any number not registered to your phonebook will be automatically be blocked and not cause your phone to ring. All calls from contacts registered to your phonebook will proceed normally. When this mode is chosen, Contacts OK is displayed on LCD in idle mode unless you have unread messages. |
| **VIPS** | In this second automatic mode, only calls from contacts registered as VIP in your phonebook will go through and cause your phone to ring. Any other number will not ring. When this nide is chosen, VIPS OK is displayed on the LCD in idle mode unless you have unread messages / missed calls (to enable, see part 2.2) |
